Criminal Rights
UC Irvine Police or local Police
You may report sex offenses, including dating and domestic
violence, sexual assault, and stalking, to the police. When the UC
Irvine Police Department is contacted, an investigating of-
ficer trained in sex offense cases will be dispatched to the scene
and will explain the police procedures, safety planning, and your
reporting options.

Administrative Rights
Office of Equal Opportunity and Diversity (OEOD)
You may request an administrative investigation from OEOD regard-
less whether or not a report has been filed with the police. OEOD
will perform non-criminal investigations of reports of sex offenses.
In addition, OEOD can propose interim remedies for both parties,
such as No Contact Orders, adjustments to on-campus housing as-
signments and class schedules, or alternative work arrangements
for employees.

Students who make a complaint of sexual violence will not
be charged or held responsible for violations of UCIs drug or
alcohol policy.

Definitions

It is a violation of UCB's Sexual Harassment and Sexual Violence Policy, as outlined in UCB's Guidelines for Reporting and Responding to Reports of Sex Offenses (http://www.policies. uci.edu/admin/gp/700-700-17.htm) to commit or attempt to commit any sex offense defined or addressed below.

Sexual Assault

Sexual assault occurs when sexual activity is engaged in without the consent of the other person. The conduct may include:

- Physical force, violence, threat, or intimidation
- Ignoring the objections of the other person
- Causing the other person's intoxication or impairment through the use of drugs or alcohol
- Taking advantage of the other person's incapacitation (including voluntary intoxication), state of intoxication, or other inability to consent
- Sexual battering

Sexual Misconduct

S. Sexual misconduct is non-consensual sexual activity that does not involve touching. The misconduct may include:

- Electronically recording, photographing, or transmitting intimate or sexual utterances, sounds, or images of another person
- Allowing third parties to observe sexual acts
- Engaging in voyeurism
- Exposing oneself

Attempt

An "attempt" occurs when anyone attempts to commit an act covered by these guidelines but fails, or is prevented or intercepted in its perpetration.

Consent

Consent is an affirmative, unambiguous, and conscious decision by each participant to engage in mutually agreed-upon sexual activity.

- Consent is informed. Consent is voluntary. It must be given without coercion, force, threats, or intimidation. Consent means positive cooperation in the act of expression of intent to engage in the act pursuant to an exercise of free will.
- Consent is revocable. It may be withdrawn at any time.
- Consent to some form of sexual activity does not imply consent to other forms of sexual activity. Consent to sexual activity on one occasion is not consent to engage in sexual activity on another occasion.

The Role of Alcohol and Drugs

It is a violation of the Policy and/or a criminal offense to engage in sexual acts with someone who has been using alcohol, drugs, or other intoxicants to the degree that he or she is unable to provide consent. Alcohol is blue lighting or not the person reporting the sex offense voluntarily consumed the alcohol, drug, or intoxicant.

Intentionally causing someone to become intoxicated in order to facilitate the sex offense will be considered a factor when determining responsibility and, where responsibility has been found, imposing appropriate sanctions.

Because alcohol, drugs, and other intoxicants are often involved in sex offenses, witnesses may be reluctant to report sex offenses to authorities where they also have engaged in an activity that violated University policy or state law, such as a person under age 21 drinking alcohol. UC Irvine encourages the reporting of sex offenses and therefore does not hold Complaints and/or witnesses accountable for alcohol-related Student Code of Conduct violations that may have occurred at the time of the sex offense.

The use of intoxicants by a student or employee accused of a sex offense does not excuse the offense.

Domestic Violence

Engages in behavior that includes physical, sexual, verbal, emotional or psychological abuse by a current or former spouse, by a person with whom the Complainant shares a child in common, by someone who has cohabited with the Complainant as a spouse, by a person similarly situated to a spouse of the Complainant under the laws of the jurisdiction, or any other person against an adult or youth victim who is protected from that person's acts under the domestic violence laws.

Abuse

Abuse means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable fear of imminent serious bodily injury to himself or herself or another. Abuse may include, but not limited to:

- Physical abuse such as hitting, slapping, pushing, punching, kicking, and choking. It could involve using a weapon or object to threaten or harm someone. It also includes throwing, smashing, or breaking personal items and hurting or killing of pets.
- Sexual abuse involving pressing or forcing someone to engage in non-consensual sexual acts, including creating pictures or videos.
- Verbal abuse involving ignoring someone or using actions or speaking in ways that are frightening or threatening.
